Biography

Wissam Daou joined NDU as a lab Instructor in 2002 after nearly 3 years of practicing Mechanical Engineering. Since coming to NDU, he has served in the mechanical engineering labs. Together with the mechanical engineering department, he has helped in developing different lab courses. In addition, wissam has helped and assisted students in realizing award winning senior projects. His professional career outside academia focuses on transforming ideas into products. He has two registered patents and his products have been recognized nationally and internationally for their problem solving characteristics. An important aspect of his life is family. His wife is also an engineer and they both enjoy raising three kids in a healthy and tech free environment.
