Biography

Dr. Bassem Sabra has a Ph.D. in Physics (astrophysics) from Ohio University, USA. His field of research is active galactic nuclei. His research is published in top-ranked astrophysics journals. He has taught physics and astrophysics courses varying from the Freshman to the graduate levels. He has extensive experience in curriculum development and outcomes assessment. He served as the first chairperson of the Dept. of Physics & Astronomy at NDU from October 2010 to September 2016.
