Biography

Layale Moussa completed her Bachelor's in General Chemistry from Lebanese University and her Master degree in Industrial Chemical Analysis at the same academic institution. She teaches the basic and organic chemistry laboratories and assists in other duties whenever needed. She helps students to conduct experiments, run laboratory tests using analytical machine (chromatography and spectroscopy). She was involved in the joint air quality project NDU-USJ. She is currently engaged in the Indevco PACT NDU collaboration project.
