Biography

Dr. Boujaoude, a full time assistant professor at NDU. She is an Architect with a Doctorate in Project Management and a Master's degree in Business Administration and International Business. The learning diversity that Dr. Boujaoude chose to get hold of opens a variety of teaching dimensions which makes her able to teach design, planning, cost control, as well as construction courses. Her main areas of expertise are in Sustainable design planning and management. She has been involved in several local projects from design to construction, experiencing the current fragmentation of architecture practice while focusing on the importance of communication between all involved parties of a project to achieve a successful result. Her research study is in the fields of design and construction management, team organization, sustainable strategies and ethics in architecture.

Doctorate thesis: "The Role of Communication in Architecture Project Management"- 2012

Member of OEA, Beirut #26767
