Biography

Dr. Nadine Hindi is an Associate Professor at Notre Dame University in Lebanon, at the department of Architecture, since 2015. With a doctorate and a master degree in urban regeneration from the University of Barcelona in Spain, she has background in architecture with a bachelor degree from the American University of Beirut. Her research and publications focus on urban topics including urban ecology, urban history, urban war geography, public spaces and waterfront issues. She organized and participated in international workshops with her students and attended international seminars and conferences. She was invited to participate in public lectures at universities and institutions in Berlin, Weimar, Barcelona, and Amman. She contributed as well to community serving by co-organizing training modules on the right to public and waterfront spaces.
