

Rita Maalouf

Associate Professor, PhD.

O: S325

T: 09.218950, Ext. 2736

E: rita.maalouf@ndu.edu.lb

Biography

Dr. Maalouf received her doctorate degree in Analytical Sciences from Claude Bernard University, Lyon, France in 2006, after which she joined the Department of Medicine/Cardiology at the University of Texas Health Science Center at San Antonio as postdoctoral fellow. Following an academic career in France and the United States, she was appointed as Assistant Professor at the Faculty of Natural and Applied Sciences in the Chemistry program in 2011, and was then promoted to the rank of Associate Professor in 2017. Dr. Maalouf main research interests lie in the development of nanoparticles as well as the conception and design of (bio)chemical sensors for biomedical or environmental applications. She is a peer-reviewer for several journals. Dr. Maalouf has been granted several awards among which the Junior Investigator Award for Women granted by the American Heart Association.

Characterization of different DLC and DLN electrodes for biosensor design.

Specialized Reports

Local

- CNRS, 2012.

Exhibitions, Competitions and Creative Work

Local

- Best Poster, LAAS conference, 2012.
- Member of the LAAS scientific committee, 2015.
- Entrepreneurship conference, DEEL project, AUF, 2020.

International

- Junior Investigator Award for Women Finalists, ATVB meeting, 2010.
- Visiting professor at INSA UMR CNRS 5280, Claude Bernard University, June 2018.
- Memorandum of agreement between Claude Bernard University and Notre Dame University for co-direction of doctorate degree, 2019.
